

**GRANT WATER AND SANITATION DISTRICT
REQUEST FOR UNDERDRAIN VARIANCE**

_____ (Developer/Builder), whose address is _____, and whose telephone number is _____, hereby submits to SEH, Inc., the District's Engineer, whose address is 390 Union Boulevard, Suite 630, Lakewood, Colorado, 80228, a request for variance from the District's underdrain requirements in Section 7 of the District's Rules and Regulations for the following reason(s): _____

_____.

This Request for Underdrain Variance is for _____ construction (specify commercial slab, multifamily residential slab, or other).

Developer/Builder hereby submits for the project/structure located at _____, the legal description for which is _____, one signed, original Underdrain Variance Agreement and the following technical documentation to support the reason(s) for the variance request stated above:

1. A letter from a geotechnical engineer stating foundations drains are not required.
2. A copy of the geotechnical engineer's report, including narrative, of boring logs and a boring location plan.
3. A site grading plan showing existing and proposed grades, boring locations and identifiers, location of all structures with lowest level finish floor (F.F.) Elevation and a foundation detail showing F.F. Location on typical section.

If the variance request is approved by the District's Engineer and Manager, the Underdrain Variance Agreement will be signed by the District and a copy the original returned to the Developer/Builder at the address indicated above.

Submitted this _____ day of _____, _____.
